TECHNICAL SUMMARY

Web developer proficient in designing and developing modern web based applications and websites. Experienced designer with a focus on clean, responsive, material design. Full stack development skills from both education and real-world experience. Proficiency in various programming languages and a strong willingness to learn and keep up to date with the latest in technology.

ACADEMIC

Alfred State, the SUNY College of Technology   *2014 - Present*
Bachelor of Technology - IT: Web Development   Expected Graduation: *May 2018*
3.70 GPA

PROJECTS

PHP CodeIgniter App - A PHP web app built using CodeIgniter. This app allows users to create and review vacation destinations. User and vacation data is stored using a MySQL database.

Events Manager - An event management app built using Vue and Vuetify on the frontend. Vue was used to dynamically load content and Vuetify was used for material design components. I used Firebase on the backend for user authentication and to store data.

Portfolio - Designed and created my own portfolio website to showcase my projects and skills as a developer. Running on an Ubuntu server and using Node.js and Nginx. Configured with SSL using a Let's Encrypt certificate. (Link to Portfolio)
